CIS is a membership community working collaboratively to shape international education through professional services to schools, higher education institutions, and individuals. The CIS vision is to inspire the development of global citizens through high quality international education: connecting ideas, cultures, and educators from every corner of the world.

As a leader in the field of school evaluation and accreditation worldwide, we provide a unique international accreditation with a focus on student learning and global citizenship. The quality and rigour of CIS International Accreditation is recognized by **ministries, departments of education, and universities** around the world as demonstration of a school's commitment to high quality international education. More than 600 CIS member schools are in the CIS International Accreditation Programme and over 500 schools have been granted accreditation, following a directed process that includes:

- rigorous evaluation against **internationally-agreed standards**,
- a blend of support and challenge focused on a school's development, and
- a **peer-based model** that brings together international educators from across the world of CIS-accredited schools
