

ISSUE 19. JUNE 2021

CAREER GAZETTE

Message from Mrs Prince

We have come to the end of another successful school year, and another graduating class. I would first like to congratulate the Year 13 IB and A' Level, and Year 12 AS and BTEC students on their graduation. We are so proud of you and we wish you all the best in your future. I would also like to congratulate the Year 11 students for completing their IGCE's and moving into their next phase of school life. Remember to start planning your career pathways and universities earlier on. All the best.

This year also brings a close to my five years at Doha British School. I have really enjoyed my role as Career Guidance Counselor and have met so many wonderful teachers and students along the way. It has been a pleasure watching all the students develop and grow into the most amazing people. To get to experience that with so many different students has been an honor.

I will be staying in Doha and concentrating on some other projects. We will have a new guidance counselor joining in the new school year who will work along with Mrs. Saify to support the students.

It has been a great pleasure getting to know you all along the years. I wish you all the best and hope the new year is successful for everyone.

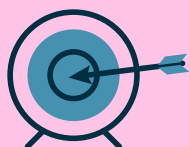

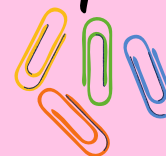

CLASS OF 2021!

Congratulations to all the students!

Wishing you success and happiness for the future!

Teacher spotlight

I have been a teacher for 15 years, specialising in IGCSE, A level and IB mathematics. My experience across three different curriculums allows me to effectively engage my students and bring a wide array of skills into the classroom. The core of my teaching strategy is to develop students' reasoning and analytical thinking. My aim is to equip the students to independently navigate their educational and professional lives, both within the context of mathematics and beyond. In a world where technology plays an increasingly important role, I believe that understanding the underlying mathematical concepts is a great advantage. Over the course of my career, I had the

SHORENA OGANESYAN

pleasure of teaching students with remarkable interests, achievements and raw talent. Thus, my interest in unlocking students' potential is ever growing. Being successful in teaching requires tireless focus on an individual level, making sure that every student learns and achieves the best possible result. I can say with utmost confidence that despite its demanding nature and responsibilities, there is no job that I would rather be doing.

"If you see beauty in something, don't wait for others to agree" - Sherihan

Productive things to do over the summer holidays

- If you are starting sixth form or IGCSE in the next academic year then you could start revising some of the content in order to prepare yourself
- Start revising for university entrance exams such as SAT/ACT or UCAT/BMAT if you are taking them in the new school year
- Try learning new skills online on websites like Skillshare or Coursera
- Learn a new language
- Do fundraisers for charities
- Practice sports activities like badminton, cycling, jogging, etc
- Take up a summer project like setting up a blog or starting a youtube channel
- Learn a new instrument
- Take up an online summer internship
- Start thinking and planning your future goals
- Maybe you can job shadow your parent or family friend at their work
- Spend time discovering Unifrog

Student spotlight

Hi, my name is Vani Gupta and I'm in year 12 doing IB. I chose IB because it gave me a range of subjects to learn especially if I wasn't sure of what I wanted to do in the future. However, now I am

more aware of what I'd like to do as a career- I would prefer to have a career in the science field either in sports science meaning physiotherapy and kinesiology or doing biochemistry in university. I have also been appointed for the position of the treasurer for the school's eco-committee which I am elated about as, my role would focus on organising fundraisers and raising money for this programme which would be crucial in making an impact.

University Rankings Top 10 for sports-related subjects (2021)

- 1) Loughborough University
- 2) The University of Queensland
- 3) The University of Sydney
- 4) University of British Columbia
- 5) University of Toronto
- 6) Deakin University
- 7) The University of Melbourne
- 8) University of Bath
- 9) University of Alberta
- 10) University of Florida
