

DOHA BRITISH SCHOOL

AIN KHALED CAMPUS

This email is for parents of students in Preschool to Year 13.

Dear Parents,

I hope you all enjoyed a restful half term break and are all enjoying the cooler weather! It has been great to welcome our children/students back to school full time this half term, we are already seeing the benefits in the children/students on a daily basis in their social interaction and confidence.

We continue to comply with all MoE guidance and continually receive unannounced visits from MoE officials to check on our Covid procedures and protocols, of which the feedback has been excellent. Our ECA programme, as much as we would love to hold in school face to face unfortunately has to remain virtual until further notice. As soon as the MoE eases this particular restriction we will inform all parents and make the necessary adjustments. This is a vital element of our school and we are keen for all ECA's to return to normal as soon as possible.

Parent Survey Findings

Thank you to the many parents who participated in the parental survey, we received many responses and were delighted with the overwhelmingly positive feedback. Find below links to a summary report from the previous survey in 2020 and the most recent 2021 survey. This feedback is vital for the senior leaders of the school to identify areas for development and improvement.

Drop off/Pick up

Those parents who drop/pick up children/students from outside the main school entrance will have noticed the improvements we have tried to implement to ease the traffic congestion and make it much smoother and safer. Thank you for the many parents who have spoken to myself personally and to other staff on how positive the changes have been; your feedback is greatly appreciated. In response to a number of parents requesting the possibility of DBS outsourcing a local school bus company, as a further means to reducing congestion, please click [here](#) to express your personal views on this matter. We will endeavour to explore this option for parents.
